SELECTED SKILLS AND ABILITIES

Technical Skills

- Competent in several computer languages including: C, C++, Objective C, C#, Java, VB, Assembly, Netlogo and Processing. Web Development using JavaScript/JQuery, HTML5, XML, JSON, CSS3 and .Net. Competent with the use of GitHub. Limited knowledge of Ruby and Python programming Languages.
- Familiar with programming in Android, iOS and BlackBerry mobile environments.
- In-depth knowledge of Windows, Mac and Linux operating systems.
- Use of word processing programs, spreadsheet programs and Google drive on various occasions to effectively organize and present information.

Teamwork Skills

- Worked closely with pilots, managers and customers to provide safe and efficient flight service at Lynn Lake MB water base, and Wollaston Lake SK airport.
- Coordinated on several projects during my coop placements with Shared Services Canada, The Hotel Communication Network and The Ottawa Hospital.
- Jointly worked with the RCMP who fully trusted me to guard numerous prisoners in a safe and dependable manner.

Problem Solving Skills

- Developed critical thinking, problem solving, and analysis skills through my countless hours of computer programming. These skills are always being developed through school assignments, personal projects and coop placements.

COMPUTER RELATED WORK EXPERIENCE

Database Entry (volunteer experience)

June 2011–April 2012

St. Patrick's Home of Ottawa, Ottawa

- Organized an existing database of charity/donors for the Foundation department

Mobile and Web Developer

May 2012 – Dec 2012 (8 Months)

Public Works and Government Services (PWGS), Shared Services

- Developing mobile applications within the Canadian government for both Blackberry and Android platforms
- Web development with the .Net Framework for various websites

BPM Developer

May 2012 – Sept 2013 (4 Months)

The Ottawa Hospital (TOH), Ottawa

- Developed automated clinical process programs with IBM's Business Process Manager (BPM). This involved parsing XMLs, using web-services, creating stored procedures and coding in HTML/JS/CSS

Android Developer

May 2014 – Present

The Hotel Communication Network Inc. (HCN), Ottawa

- Worked in a team environment developing an Android tablet oriented program with the use of Eclipse, GitHub, Gimp and CouchDB

OTHER SELECTED WORK EXPERIENCE

Customer Service Agent (CSA)

2007-2009

Transwest Air (Airline), Wollaston Lake, SK & Lynn Lake, MB

- Operating various computer programs (mainly Sky-Line) to make reservations, book chartered flights, bill out customers, organize freight/delivery and make posting or bulletins
- Customer service, aircraft dispatching, billing, ground handling and micro-management at Lynn Lake Water base, MB and Wollaston Lake Airport, SK
- Attention to detail through maintenance of various buildings and hangars; such as building structures, painting, collecting water, insulating, and vehicle repair

Prison Guard

2009 (10 Months)

Royal Canadian Mounted Police (RCMP), Wollaston Lake, SK

- Acquiring awareness of safety practices while guarding numerous prisoners overnight. I was also responsible for preparing food and cleaning the officers' facility

Landscaper

2003-2005 & 2010 (Seasonal)

Landscape Creations, Sault Ste. Marie, ON

- Trimming, weeding, mulching, digging, raking, wheel-barrowing and so on for wealthy residential homes and businesses, where I gained personal and time management skills
